

“The school is amazing and the people are fantastic. The intensive one year GCSE programme is preparing me to go on and study A-levels at a UK school.”

A day in the life of ... Kevin from Switzerland

Thursday

Last night I spent my evening preparing for my ICT test. Although it was challenging I think I've done well.

7.15 Wake-up
8.00 Breakfast
8.45 Registration

9.00 - 12.40 Morning lessons
After ICT it was on to GEOGRAPHY, where I learnt about rivers and water management. Next week we'll be going to the Thames Barrier in London to learn about flood defenses.

After MATHS, I had ENGLISH. I'm studying "An Inspector Calls", which was written by JB Priestley in 1945. Later on in the term we'll be going to see the play at a local theatre.

12.40 - 13.40 Lunch
After a busy morning I was looking forward to lunch. Today I had fish & chips and apple pie - my favourite!

13.45 - 16.00 Afternoon lessons
I had BUSINESS STUDIES after lunch. We are learning about the supply chain. I then had a STUDY SKILLS class, where I learnt how to prepare for the GCSE exams in the summer.

16.15 - 21.00 Activities, free time and prep
After classes I'm looking forward to having a riding lesson at the on-site riding school.

And after dinner, a few friends and I are getting together to work on our English coursework.

21.15 House meeting
22.30 Lights out

This is only a guide of what life is like at Bell Bedgebury International School. Each student's day will vary dependent on subjects chosen.
